CALLAWAY CATTLE COMPANY

We would like to extend a hearty invitation to you to be with us for the 2nd Annual MM Cattle / Callaway Cattle Co. Bull and commercial female sale. The sale will again be held at the Carroll County Livestock Sales Barn in Carrollton, GA on the Saturday before Thanksgiving, November 22, 2014. We will be offering 40 bulls and 40+ female lots. All the bulls will be fall 2013 born, making most of them 14 - 15 months old. All will be either registered Angus or SimAngus ready to go to work. The females will all be Angus or Angus based and will sell as pairs with calves by their side or as heavy breds.

All the bulls were ultrasound by Dr. Dean Pringle of UGA on Sep. 16. All ultrasound/carcass data is listed in the catalog.

All the bulls were semen tested the week of October 20 by Dr. Phillip Wilson of Southland Vet. Clinic of Bowdon and guaranteed breeders to settle cows.

The bulls were hand fed a ration designed to gain 3 - 3 1/2 lbs per day. They were not on a "gain test" but instead were developed and grown out on large pastures allowing plenty of room for exercise. The bulls are athletic and ready to cover some ground and cover your cows. They are not overly fat, as you can see by the scan data. But they have been fed enough to allow them to express their genetic potential.

We are in uncharted waters as far as the cattle business is concerned. None of us have ever seen a market this strong. The economists tell us we have several more years before the cow herd numbers can possibly build up enough to see much of a decline in prices. What an exciting time to own cattle!

We would like to express our thanks to our many valued customers over the years and especially in this sale last year. It is very gratifying to get the good reports from you on how the bulls and females have worked for you. Thank you for your business, your confidence in our program and your friendship.

Please call us if you would like to see the cattle anytime before the sale. We hope to see you on Saturday, November 22nd.

John Callaway

COMMENTS FROM THE SALE MANAGER

It is a pleasure to be working with Mike and Christy McCravy along with John and Marcia Callaway and son Wes Pope on their Second Annual Angus and Sim-Angus Bull Sale. This bull sale represents an unbelievable set of high performance, predictable and profitable Angus and Sim-Angus bulls from two of the most respected cattlemen in the Southeast.

As you flip through this book, you will find cattle with tremendous phenotype, performance, structure and scrotal size that offer any seedstock or commercial cattleman profitability. These cattle produce light birth weight, high performing calves at weaning with added carcass genetics and offer commercial cattlemen who sell their calves by the pound added value or retain their replacement females with genetics that will work in any situation. They also have a special select set of hand-picked commercial replacement females.

This sale event represents a day of opportunity to select genetics that will go home and work to make you, the cattleman, money for many years to come. It is certainly a pleasure to work with these two great families on one of the very best sets of cattle that they have ever had the opportunity to put together. If you have any questions, please feel free to contact the farms or myself at (816) 516-1309.

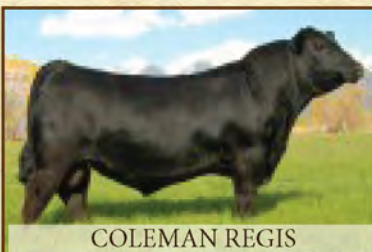

Sincerely,

Jeremy Haag
Sale Manager

HEALTH

Bulls have been vaccinated for IBR, BRSV, BVD, PI3, Pasteurella, Leptospirosis, vibrio and colostridial diseases. All bulls have been wormed alternately with Dectomax and Valbazen and all are virgin bulls. Proper interstate health papers will be available at checkout.

TERMS AND CONDITIONS

All Bulls sell under the terms and conditions of each breed association, we guarantee all bulls sold in this sale to be fertile for the first breeding season if they have been given proper care. If a bull fails to settle cows during the first breeding season we will provide a satisfactory replacement if one is available, or issue a credit, less salvage value toward next year's sale. If there is a problem we would ask to be notified as soon as possible. This is not a life insurance policy. We will not replace a dead animal if it is killed, dies, or is injured for any reason. We would suggest that proper care and nutrition be provided to these animals.

FERTILITY

All bulls have been semen tested by Dr. Philip Wilson approximately 30 days prior to sale and will be accompanied with proper documentation.

SCHEDULE OF EVENTS

Cattle will be available for viewing starting Thursday afternoon, November 20 at sale site and at farms prior to then. Complimentary lunch will be provided on sale day.

**YOU NEVER KNOW
WHERE STRONG, HEALTHY
CALVES WILL TAKE YOU.**

Your calves are more to you than livestock. Give them a strong future by starting with INFORCE™ 3 respiratory vaccine. It's the first and only vaccine labeled for the prevention of BRSV and helps protect against infections like IBR and PI₁. Healthier calves can lead to great things, like that getaway you've always wanted.
