- Welcome -

Thanks for taking time to view the offering of the Legends of the Blue Ridge sale. Much of the country has seen some of the toughest times in recent history. The extreme drought in the southeast, the heavy rainfall earlier in the Midwest combined with high input cost have made for a bumpy ride thus far in 2011. Feed resources will be in high demand and short supply this year. The bright side of all of this is an all time high in cattle prices. Nationwide, despite the huge number of cattle coming to town, the price for all classes of cattle are high. This is the time to invest in young beef cattle. When it goes to raining in the west it is believed that bred replacement stock will be in great demand. This includes seedstock animals. Simmental and Simmental influenced cattle are well received and well thought of in the industry. The product is here and the customer service of the VSA and Blue Ridge group will be strong as we stand behind these cattle 100%. There is opportunity throughout this catalog to make money. So join us in the beautiful New River Valley of Virginia on the 1st day of October to capitalize. Thanks Again!

The Legends of the Blue Ridge Group

It was almost like pulling teeth to get Tommy Cline to sell a flush on Sweet Dream, but it is his commitment to bettering the Simmental population and offering his very best that got the go ahead from Rocky Hollow Simmental. Sweet Dream is a proven producer of herdsires, show ring winners, and tremendous replacement females. This known daughter of the matriarch B80, is the dam of TNC Remington's War, an exciting young herdsire working for Rocky Hollow and Jess A Marr Farms. The first progeny sired by War prove the potency of the old saying, "A good bull must come from an exceptional cow!" October 1st is your chance to flush Sweet Dream to the sire of your choice. Tommy says, "this is a first and a last time to sell a flush from this proven donor." Imagine the possibilities that you can create from these proven genetics. Simmental cattle are increasing in demand daily so get your sire books out and start studying which bull you want to use. For details about this flush feel free to contact Tommy, Doug Parke or Jered Shipman.

Lot 1A

**3 or 5 Embryos
 Sweet Dream x RTC Cowboy 865**

Consigned By: Rocky Hollow Simmental

Selling choice of 3 or 5 embryos, with a guarantee of 1 out of 3 or 2 out of 5 pregnancies, as long as work is done by a certified embryologist. The embryos are sired by RTC Cowboy 86S, full brother to one of the most dynamic sires to ever hit the breed, Steel Force. After talking with Jeremie Ruble, we decided to use Cowboy because the calves sired by him are super sound and just all around good! We are proud to have raised a bull calf from this mating that will be exhibited at the 2011 North American. The homework is done, we've created these embryos from solid, predictable genetics, that have a little different twist, for you to reap benefit!

Lot 2A&B

H29 Embryos

2A Sire: R & R Chamberlain X744 (ASA # 2560058)
 2B Sire: Welsh's Dew It Right 067T ASA #2403649)

Consigned By: Shipwreck Cattle Co

We are all familiar with the superior longevity and ultimate proven nature with the B80 cow family. In most recent times, the highly proven and promoted descendants of H25, a direct daughter, and a granddaughter of H25, Miley's Cottontail, have produced some of the breed's most sought after phenotypic and genetic packages. Here's an opportunity presenting itself for the taking, a full sister to H25 herself that we discovered at Tom and Ruth Clark's only two years ago, H29.

H29 is a flush mate sister to H25, wrapped in a longer sided, more attractive package than her sister. When we acquired her she had a big bodied, easy doing, good looking Simangus by GAR Predestined. We regret that we do not have very many live progeny, but will have several coming this fall and Spring 2012.

You have the choice of two potent young sires. R&R Chamberlain X744, is the highest selling bull ever for the Steve Reimer family of South Dakota. He was regarded by many folks to be the best bull sold in this year's high plains "bull run." Noted for his superior stoutness, and flawless structure and massive foot size, has made him a must use on this cow family. Dew it Right, really needs no introduction to the Simmental population. His cattle have been regarded as a breath of fresh air. Consistency thrives in these matings. Guaranteeing 1 out of 3 or 2 out of 6 pregnancies, as long as work is performed by a certified embryologist. Selling 3 or 6 embryos, mix and match if you like.

Mr HOC Broker / Steel Force son out of a full sister to H29.

3B Sire: MR HOC Broker (ASA# 2531081)

Consigned By: Hidden Oaks Cattle

The bulls in this scenario may not need any official introduction to the Simmental public, but let us introduce you to the donor. This rare daughter of BH Right Time is one that is very true to course. Right Time daughters have a proven history of excellent maternal ability with enhanced power. Simply Red was a featured donor for both Sunset View and Pine Ridge. She is the dam of the Foster Brother Farms donor SVF Star Struck S199, who is also the dam of FBFS Wheelman (a Denver 2011 crowd favorite Steel Force son). Three generations of modern, consistent, proven genetics.

STF Dominance is the red sire of choice that has a Denver title to his name, along with the notoriety for being the sire of one of the best bovine females, of any breed, to win Louisville 2 consecutive years, STF Onyx.

Broker is a Steel Force son of the great H25, that was reserve at the 2011 NWSS. Embryos by two solid bulls from a successfully proven donor.

Selling two packages of 3 to 5 embryos, one of each sire; guaranteeing one pregnancy on three or 2 pregnancies on five as long as work is done by a certified embryologist.

STF *Simply Red*

STF Simply Red / Donor dam of Lot 3 embryos.

STF Dominance T171 / Sire of Lot 3B embryos.

Consigned By: Hidden Oaks Cattle

We believe that this is a great opportunity to place you on the ground floor with some of the first genetics sold at public auction sired by the young, stout Metzger herdsire, Alkaline. Alkaline garnered the attention of several breeders at the 2010 NAILE Simmental Show, where he collected the Fall Yearling Division Title. Muscle shape and performance would be his fortes.

The potential success in the chemistry of this mating is further enhanced by this solid, young donor, with an outstanding family resume'. Her full sister, in blood, Magnificent Dreams, is a successful proven donor for the Kasl Family, NE. Mosaic worked well for BP Cattle Company, and has succeeded our expectations in the short time we have owned her. This mating is the future of our endeavors in the Simmental business and we believe it will be pivotal for yours. Tie in.

Selling one package of 3 or 5 embryos; guaranteeing one pregnancy on 3 and two pregnancies on 5 if work is completed by a certified embryologist.

EBS *Magnificent Dreams*

Magnificent Dreams / Full sister to EBS Dream Mosaic, donor of Lot 4 embryos.

Consigned By: Ingram Livestock

Selling 5 embryos with a guarantee of 2 pregnancies.

Ingram Livestock selected Sheza Star T800 out of the Field of Dream sale from Clearwater and Sunset View. Ingram Livestock program contained several Benchmark daughters and wanted to add one from this potent family line. This Benchmark daughter is now in her prime and super impressive. As most Benchmark donors, she's impeccable uddered, with loads of capacity and an ideal look. We recently flushed T800 to the outstanding herd sire at Janssen Farms, American Pride. This outstanding Upgrade son is out of the WLE Crusin Suzan and we feel has the power to add to our Sheza Star T800. Only because of a successful flush were we able to offer some of these genetics available to the Legends of the Blue Ridge. If you don't like this mating we are always easy to work with, call if you need additional details.

American Pride /
Sire of Lot 6 embryos.

Lot 7A

Consigned By: Sloup Simmentals

Ebonys Mavis was one of the high selling donors at the Pine Ridge dispersal and you can see why. This baldy donor is a moderate framed, three dimensional, and is popular among breeders. Her dam, Majestic Lady is a full sister to Magnetic Lady. Both females, along with other family members have flourished over the years, not only in the sale ring, but the show ring and pasture as well. Just study any catalog and you will see the results of these genetics time and time again. We are offering 3 embryos out Mavis and the outstanding breeding bull SVF Steel Force. Selling three guarantee one pregnancy.

SVF Steel Force /
Sire of Lot 7A & 7B embryos.

Consigned By: Sloup Simmentals

Longevity and stayability are very important traits, if you want to remain in business for a long time. I don't know if you could have too many Benchmark daughters in your herd. The P419 donor is always the same everyday of her life. A cow that offers soundness, depth of body and overall capacity plus has the best udder of any cow we own at Sloup Simmentals, a model of efficiency. I don't know if you remember P419's dam a Power Drive out of Applause. Why wouldn't SVF Steel Force work on this outstanding donor. Progeny will be good and marketable anywhere. Selling three embryos guarantee one pregnancy.

EBS Ebonys
Mavis 414P /

This Branded Beef daughter brings excellent outcross, black, Simmental genetics to the table. Her breeding to RCR Stetson should produce a calf that will fit into any purebred or commercial herd. Audrey is moderate framed, deep ribbed, clean fronted, and has a good disposition. She will calve in mid-September. This girl is one you will want to take home.

Due to calve 9/19/11 to RCR Stetson (ASA# 239613).

Here is a bull that will work. He is ready to turn out with cows. First Glance is out of one of our favorite donors, Antionette T704. We are selling a flushmate sister, as Lot 14, in the sale also. First Glance was shown as a yearling, by the Rafitt Family in Kentucky, and brought home a lot of purple. Take Glance home and let him work for you.

AMERICAN SIMMENTAL ASSOCIATION SUGGESTED SALE TERMS AND CONDITIONS

BIDDING AND APPLICABLE LAW: All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, expressed or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale book or as prohibited by law in the state wherein the sale is being conducted.

ANNOUNCEMENTS: Any change of information other than in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty) must be documented by seller if requested by the buyer at time of sale.

TERMS: Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected. **PURCHASER'S RISK:** Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty-four (24) hours after the sale, whichever occurs first.

HEALTH REQUIREMENTS: All cattle entered for sale must meet the health regulations of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and seller and should be documented in writing. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

CERTIFICATE OF REGISTRY: Each animal which is catalogued, offered and sold as a registered animal shall have a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for", the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

IDENTIFICATION: Each animal at time of sale must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

AUTHENTICITY OF PEDIGREE: When an animal, through parental validation, is determined to have an ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller's expense. The animal in question, at the buyer's option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.

BREEDING GUARANTEES AND DEFINITIONS:

1. Females are guaranteed to be breeders, with the exception of:
 - a) Female calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or wilful misconduct on the part of the purchaser
 - d) Females used in ovum transplant after time of sale
 - e) Cows sold with calf at side or a female that calves after sale to a breeding prior to the date of sale
2. Bulls are guaranteed to be breeders (definition as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
 - a) Bull calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or wilful misconduct on the part of the purchaser
 - d) Bulls shown competitively after sale
3. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between buyer and seller.
4. Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian, and are pregnant at time of sale.
5. A bred female is a female that has been serviced by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.
6. A pasture bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that the female is safe in calf to that bull.
7. An open heifer is a virgin heifer that has never been exposed to a bull either through natural service or artificial insemination.
8. An open cow is a cow that has not been exposed to a bull either through natural service or artificial insemination.
9. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

PRIVILEGE OF PURCHASER TO EXAMINE: The purchaser of a female animal may have her examined within twenty-four(24) hours after the fall of the hammer and prior to removal from sale premises. The pregnancy status or breeding status of a female so examined, when found not to be as represented at the time of sale, is cause for the female to be returned to the seller as unsold.

EMBRYO TRANSFER:

1. Sellers should provide upon request a complete history of embryo transfer activity for any female offered for sale.
2. Withholding information on the existence of frozen embryos at the time of sale would be considered an unethical practice.

HORNED-SCURRED-POLLED:

DEFINITIONS:

1. **HORNED** - AN animal with a horn growth affixed to the skull that has or has not been removed.
2. **POLLED/SCURRED** - An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not be come affixed to the skull at an older age.
3. **POLLED** - An animal with absence of horn growth. (An animal can have scurrs and still be genetically polled).
4. **SMOOTH/POLLED** - A smooth-polled individual has no scurrs and does not develop scurrs later in life.

GUARANTEES:

1. If an animal is sold as polled/scurred and proves to be horned, the seller shall be obligated to refund the purchase price upon return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value whichever is acceptable to the buyer. The buyer has thirty (30) days from date of sale to notify the seller that an adjustment is in order.
2. If an animal is sold as smooth-polled and proves to be scurred, the seller shall be obligated to refund the price upon return of the animal to the farm of the seller at the expense of the seller or at the buyer's option shall be exchanged for a smooth-polled animal of equal value.
3. If an animal is sold as polled and develops scurrs, the seller will not be obligated to make any adjustment as a scurred animal is considered polled.
4. If an animal is sold as polled and has scurrs, it shall be so announced at the time of sale that the animal has scurrs. If it is not announced at the time of sale that the animal has scurrs. If it is not announced and the buyer finds before the animal leaves the sale premises that the animal has scurrs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute.

1. All claims for adjustment or refund must be made in writing either six (6) months from the date of sale or no later than when the animal reaches 24 months of age whichever occurs later, with the exception of claims involving Misrepresentation of service sire or as otherwise provided herein.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the seller, at the buyer's expense, if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal which to prove the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of buyer, replace the animal with another equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement.
3. If a female is sold as "safe in calf" to a given sire or sires on a specified date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal and resulting progeny there of to the farm of the seller at the seller's expense.
4. If a female is sold as "open" and proves to be with calf at time of sale and examined pregnant within sixty (60) days after sale, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

LIMITATIONS OF OBLIGATIONS:

1. If the aforementioned suggested terms and conditions are adopted, they should constitute a contract between the buyer and seller for each animal sold under these terms, as such, should be binding upon both parties. Animals resold following purchase in a sale shall constitute a separate transaction and the privileges and obligations of the original two parties connected thereto are not covered by the terms and conditions of sale.
2. The American Simmental Association, its directors or employees are not in any way responsible or liable for enforcing the suggested terms and conditions of any agreement involving transactions between buyers and sellers.
